J. W. O'Brien, one of the Wadsworth School Trustees, forwarded a communication to the JOURNAL regarding the election of Principal for that district. Mr. O'Brien is desirous of contradicting a wrong impression that seems to have gotten out and as the article in another column contains the substance of his letter, it will probably be satisfactory to the gentleman.

THE WADSWORTH SCHOOL.
The Change of Principals Not Prejudice, but Principle.

The JOURNAL, a few days ago commented on the apparent school rumpus going on at Wadsworth. The comments were based on an article in the *Dispatch*, in which Mr. Dornberg, the ex-principal, was highly commended and a long list of names asking that he be retained for the ensuing year, indicated that he was really the choice of the majority of the people of that School District and that the Trustees had acted arbitrarily in refusing to continue his services.

The JOURNAL had no interest in the matter other than to see the schools of the county under proper heads and to discourage as far as possible any feeling that would injure the good work of the school.

Now comes a private letter from Wadsworth from a taxpayer, who gives facts concerning the action of the trustees. The intimation that the change of principals was owing to prejudice or some similar reason, is emphatically denied. The trustees had determined to employ Nevada graduates, all things being equal, rather than importations.

Mr. Dornberg was recognized as an excellent teacher and gave universal satisfaction, but Mr. Caine was a native son of Nevada, a graduate of the University and fully competent in ability and experience and it is believed will give perfect satisfaction. Following out the principle of "Nevada teachers for Nevada schools," the trustees of Wadsworth employed Mr. Caine.

The compliment paid Mr. Dornberg on the eve of his departure is admitted to be deserved, and was heartily joined in by even many who favored the employment of Mr. Caine.

There is a disposition in almost every part of the State to give home teachers the preference, and there seems to be a determination among the trustees and patrons of the schools this year to practically exemplify the principle.

Lovelock District took the initiative, and only last week a protest was made against the employment of a certain teacher at Empire, on the ground that he was a non-resident. There was no other objection offered, and he was told frankly, that while it was believed he was competent, the objection that had been filed would be urged strongly against him.

The Wadsworth School Board feel that they are quite able to manage the affairs of their district, reports to the contrary, notwithstanding, and have employed a young man, who in their opinion, will give eminent satisfaction.

Mr. Caine has had nothing to do with the controversy. He understood there was to be a vacancy and he applied in the usual manner. He brought no influence to bear, nor did he make any great effort for the position. He simply presented himself as an applicant on his merits as an experienced and successful teacher. He is comparatively a side issue and does not feel that he is connected in the most remote manner with the controversy.

Mr. Caine is willing to act fairly in the matter, but is now placed in a position where he must protect himself.

It is not his desire to foist him self on any district against the wishes of the patrons of the school, for it would be unpleasant for him and would obstruct the work that he offers to undertake conscientiously and with a view of giving general satisfaction. Yet, he cannot afford, as far as he is personally concerned, to "hide his light under a bushel" to gratify the personal feelings of a few that have no other interest in the matter than their personal regard for the ex-principal, for whom, Mr. Caine also has the highest esteem. Mr. Caine desires to be left out of the controversy entirely and whatever differences exist he hopes will be settled without compromising him in any way.

Mr. Caine is a progressive young man and an earnest and hard worker. He is genial and his greatest ambition is to make friends of his pupils and their parents wherever he is employed and always succeeds in this particular. The Wadsworth people may be assured that they have obtained the services of a young man who will without doubt win their esteem and become as popular as was his predecessor.

The Discovery Saved His Life.

M. G. Caillouette, Druggist, Beaverville, Ill., says: To Dr. King's New Discovery I owe my life. Was taken with La Grippe and tried all the physicians for miles about, but of no avail, and was given up and told I could not live. Having Dr. King's New Discovery in my store I sent for a bottle and began its use, and from the first dose began to get better, and after using three bottles was up and about again. It is worth its weight in gold. We won't keep store or house without it. Get a free trial bottle at S. J. Hodgkinson's Drug Store.

WEATHER BULLETIN.

July Probabilities for Rainfall and Disturbances.

(Copyright, 1896, by W. T. Foster.)

St. JOSEPH, Mo., June 26.—My last bulletin gave forecast of the storm wave to cross the continent from June 30th to July 4th.

The next disturbance will reach the Pacific coast about the 5th, cross the west of Rockies country by the close of the 6th, the great central valleys July 7th to 9th, Eastern States July 10th.

The warm wave will cross the west of Rockies country about the 5th, the great central valleys July 7th, Eastern States 9th. The cool wave will cross the west of Rockies country about July the 8th, the great central valleys 10th Eastern States July 12th.

Temperature and rainfall of the week ending July 2d, as an average of the counties of the Rockies, will be above normal.

The third disturbance of July will reach the Pacific Coast about the 11th, cross the west of the Rockies country by the close of the 12th, great central valleys, 13th to 15th, eastern States on 16th.

The warm wave will cross the west of the Rockies country about the 11th, great central valleys, 13th, eastern States 15th. The cool wave will cross the west of the Rockies country about the 14th, great central valleys, 16th and eastern States on the 18th.

In most parts of the United States July is the hottest month in the year. The normal or average of the Julys of many years past reaches its highest point between the 8th and the 18th. This varies, however, the crest being short and sharp in the north and long in the south.

The hot waves of this July are expected to cross the continent not far from the 1st and 16th of the month with a cooler period between. Not far from the highest point of the normal will occur the coolest part of this July, as a cool wave is expected to cross the continent not far from the 10th.

For July the rainfall divides into three principal dates, not far from the 1st, 16th and last days of the month.

All the changes mentioned move from west to east across the continent, occurring first in the west and an allowance of three to five days must be made for the time necessary to cross the continent.

The weather features of greatest importance for this July are the average temperature and total rainfall. The corn crops largely, and other crops to a large extent, depend on these weather features.

July temperature will average very low in the upper Mississippi and the Ohio valleys, the upper and lower lake regions, Pennsylvania, New York and the New England States.

Frosts would be quite an unusual thing for July, but the temperature during this July will go dangerously near the frost line in northern parts of the countries mentioned in the above paragraph.

In all other parts of the United States the temperature will range from about to above normal.

Rainfall of this month will be short in the New England States, Texas, Indian Territory and Western Kansas.

Ormsby Ignored.

Under the above caption the *Appeal* of yesterday takes some exceptions to the action of the Democratic County Central Committee in appointing two of Washoe's citizens to represent Ormsby county on the Reception Committee on the occasion of Bryan's visit to Reno on the evening of July 2d. The JOURNAL is not authorized by the committee, but takes it upon itself to say that no effort was made to get the choice of committee men. The point mainly considered was to have representative men from the Democratic and Silver parties and men who would probably be in Reno and act. This is all that was considered at the time and the matter of residence or location was perhaps not thought of.

In view of some criticisms made, Mr. Kelley, one of the parties named to represent Ormsby, has a short communication in the *Appeal* which is here presented:

EDITOR *Appeal*:—The citizens of Reno at a public meeting appointed a committee to receive Wm. J. Bryan upon the occasion of his arrival at Reno on the evening of July 2d, and honored me by naming me as one of the committee from Carson. To this some of the good citizens of Carson object, and I believe, justly so, as they claim the right to select their own committee. As I am a citizen of Washoe county, where my family resides, where I pay taxes and where I vote, I desire through your columns to state that I have no desire nor disposition to assume any of the prerogatives which properly belong to the good people of Carson, and that I had no knowledge of my appointment as a member of the committee until I saw my name in the papers. Respectfully,

E. D. KELLEY.

Carson, June 24, 1897.

No slight to Ormsby county was intended and in the words of the *Appeal* it is hoped that nothing will deter the admirers of Bryan from turning out in full force and assisting in the demonstration in his honor. It is presumed that the reception committee was appointed for the purpose of receiving the visitors from adjacent towns on that evening as well as to receive Mr. Bryan, and it was thought advisable to have men that were familiar with the arrival of trains and other details in and about Reno that no confusion might ensue.

District Court.

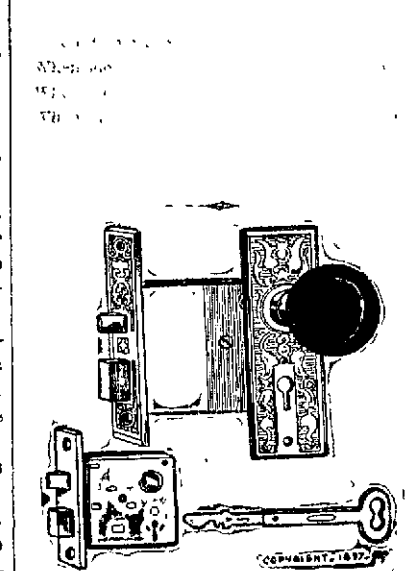

The jury in the Foley estate case brought in a verdict yesterday morning. The nineteen questions submitted being decided in favor of the Eastern heirs, Mrs. Foley, mother of the deceased, the brothers and sister. This is in accordance with the contract of settlement of September 17, 1894.

After the verdict of the jury was announced, Hon. Thos. Wren in behalf of Mrs. O. J. Smith moved for a judgment in favor of his client, notwithstanding the verdict of the jury. Judge Mack set July 2d as the date for argument on the motion. It is quite probable that an appeal to the Supreme Court will be taken and in view of this the case has been handled very carefully by the contesting lawyers and Judge Mack has maintained his reputation as a careful and wise Judge. The case has without doubt been one of the most intricate as well as one of the heaviest ever tried in Washoe county and its record will probably be quoted as an authority in similar litigation.

The parties to the suit, including the attorneys on both sides, felt a sense of relief when the verdict was rendered yesterday, for it has been a strain on the former and the latter have all worked faithfully and hard since the case began. It has been a hard trial on the jury as well. The long arguments and reading from authorities in endeavoring to maintain or have ruled out certain points has been very tedious to men not versed in the intricacies of the law or technical court procedure. While the jury has been allowed freedom during the recesses of court, the members have been under a certain restraint and great responsibility and they were glad that their duties were ended.

BEAUTIFUL FLORENCE.

A City Praised For Its Good Manners and Harmonious Surroundings.

If I wished to teach an awkward child, youth or girl good manners by example, I should send him or her to Florence, says a writer to Truth (London). There may be ill-mannered persons there, but I never saw one. Poor people behave with the naive dignity which used in England to stamp the lady or gentleman. Most persons are brainy, but cleverness is not eager to shine. It is very subdued and more oily than corrosive. The charm of Florence rests on one like the wit of its clever inhabitants. The senses are soothed in all directions by harmonious manners and objects. Architects understood child-rearers not less than the great painters and sculptors. One never wonders of the streets and public buildings. Their aspects constantly and strongly vary, according to the course of the sun. Lights and shades at 10 in the forenoon are wholly different from what they will be at 4 in the afternoon. The Florentine women have interesting though not beautiful faces. But one has only to walk into the market to see country girls who would have done for models for Raphael's Virgin mothers. One is struck in the galleries with the nice judgment with which the pictures are hung. What more lofty in sentiment than the tomb of Lorenzo de' Medici! Let us see an attribute of Florentine architecture, palatial or domestic. The doors of private houses might pass in England for portals. One feels them to be great facts in their way.

Talking of harmonious things reminds me of the Boboli gardens. Is there a spot in England, the land of safety and lovely seats, that at all approaches them? In situation and tranquility, generous loveliness I can only think of one—the Duke of Northumberland's terraced gardens at his place in Surrey. The Boboli Eden, where the Prince and Princess of Naples still court exclusion, has the advantage over the Surrey paradise of being under a revealing sky. Every shade of greenery, every floral hue, is well brought out. One sees the fanciful textures of statues and fountains mellowed by time. In so strong a light a well ordered design is required, and one has it. The marble and the flower. They are to the horticultural faculties as brilliant to the two and same of a fine woman's dress.

Florence is not what it was in the prime of days. Still, it retains the air of a capital with a long and illustrious history. The ladies' dresses are not so good as measured by the Paris standard, to which Italian women above the present class generally conform. But the dresses are generally well made and the colors are applied by French handmaids and femmes de chambre. A French face or a German face under a Paris hat or a French hat is a great advantage. If the hair has been properly treated by a French hairdresser, it is a great advantage. If the hair has been properly treated by a French hairdresser, it is a great advantage.

Just as the supreme court is known as a newspaper man as one of the highest men in the world. Not long ago a correspondent found it necessary to call upon the justice at midnight in a city of opinion delivered by him at the court that day. Justice White was in bed asleep, and it was with great difficulty his servant was induced to awaken him. "If I did not know him to be the best man in the world, I would not dare to do it," he explained. The correspondent waited anxiously in the hall for the verdict. Would the justice come down stairs? And if he came, would it be for the purpose of looking up the desired document or of throwing the disturber of the peace out?

After a time the big justice came down the stairs in his pyjamas, rubbing his sleepy eyes. He was not enthusiastic about the midnight call, but he was polite. As soon as the visitor had explained his errand the justice led the way to his study. There he got down to his books and rummaged about for some dusty old papers in the hope of a headache for the desired document. In a quarter of an hour he had not only failed, but he was very glad to have the visitor leave. He had not half so much patience as the next paper man, to whom the justice's paper man, a "scop" the next morning for the journal he represented.

"Excuse me a moment," said Justice White. In five minutes he returned, bearing with him a glass of toddy and a couple of Havanas. "Drink hearty my boy," he said, "and light a cigar. Nasty night out. Good night."

"Now, that is what I call a real gentleman," said the correspondent to himself as he rushed away.—Washington

PERIODICAL SICK-HEADACHES.

Of Interest to Women Because in this Case they Proceeded from an Ailment Peculiar to the Sex.

THE MOTHER OF A YOUNG INFANT INTERVIEWED.

From the Herald Democrat, Huron, S. D.
A few years since, J. W. Kelley came to Huron, South Dakota, from Osceola, Iowa, and purchased an interest in the Huron City Mill, an immense structure having a capacity of 200 barrels of flour per day. Soon after his arrival Mr. Kelley's family removed here and some months later they were joined by their son Elmer and family, he having purchased an interest in the concern, and the firm became known as J. W. Kelley & Son. Since their arrival they have built up an immense trade for their patent roller flour, and ship many carloads every month to eastern and other markets.

When they came to Huron, Mrs. J. W. Kelley was in very delicate health and the change of climate and conditions seemed to benefit her. But the relief proved only temporary however, for after a few months' residence here she lapsed into the same infirm physical condition that had been her lot for then nearly twenty years. Her ailments were those peculiar to women, and which women alone can best understand. In addition to these troubles Mrs. Kelley was a sufferer from acute sick-headaches. This would come upon her at intervals of about two weeks, continuing for two, three or four days, much of the time compelling her to keep to her bed. Because of her affliction she was quite unable to do her household work, and her husband was obliged to visit her neighbors, or attend church. This worried her greatly for she is a devout Christian and lives according to her profession. As Rev. B. H. Burr, pastor of the Congregational Church, to which Mrs. Kelley belongs, said of her one evening at the close of service:

"Mrs. Kelley is indeed a true mother in Israel; she is conscientious and earnest, faithful and devoted—a Christian in the truest sense of the term."

In replying to inquiries touching her case, Mrs. Kelley said:

"I am sixty years of age, and was born in New York State, where I lived for fourteen years, then removed with my parents to Michigan, living there about the same number of years, then went to Iowa, remaining there till we came here some four years ago or more. I have been troubled with weaknesses peculiar to my sex, for the past twenty-five years. During that time my husband has expended a large amount of money feeling physicians and buying remedies, but I found little relief. Physicians told me the nine pounds." As it lay there, its little pink fists clinched over its thumbs, its little eyes puckered up in sleep, a bundle of pink, satiny infantine loveliness, there could be little doubt of the physical health of its parents.

"See my baby, God bless its heart," said the proud mother. It is as strong and healthy as any baby ever born, and weighs nine pounds." As it lay there, its little pink fists clinched over its thumbs, its little eyes puckered up in sleep, a bundle of pink, satiny infantine loveliness, there could be little doubt of the physical health of its parents.

"Reeder lives at a cottage numbered 407, East Pio Street, Los Angeles, Cal., and the last word she said was 'Oh, you are perfectly excusable. I am just as glad to endorse Dr. Williams' Pink Pills as you can possibly be to hear my story. If all suffering women only knew their power and good, there would be less sickness and misery in the world, I assure you. Good bye.'"

Dr. Williams' Pink Pills for Pale People contain, in a condensed form, all the elements necessary to give new life and richness to the blood and restore shattered nerves. They are an unfailing specific for such diseases as locomotor ataxia, partial paralysis, St. Vitus' dance, sciatica, neuritis, rheumatism, nervous headache, the after effect of la grippe, palpitation of the heart, pale and sallow complexion, all forms of weakness either in male or female.
